Education

Dhirubhai Ambani University (Formerly DA-IICT) — **2024 – 2028**
B.Tech in Information & Communication Technology – ***CGPA: 8.51/10*** — *Gandhinagar, Gujarat*

Pioneer School of Science — **2023 – 2024**
Class 12th (GHSEB) – ***Percentage: 92.92%*** — *Patan, Gujarat*

Experience

ACM India Summer School on Competitive Programming, DAU — Gandhinagar, Gujarat
Teaching Assistant — *June 2026 – June 2026*

- Assisted Prof. Rachit Chhaya and **Anup Kalbalia (former CEO of CodeChef)** in **10+ sessions** and **10+ contests** and mentored **50+ students** by resolving CP and coding doubts during lectures, practice sessions, and contests.

Projects

RFlow – Basic API Gateway System | *Java, Spring Boot, Docker, PostgreSQL* — **[Live Demo]** | **[GitHub]**

- Built a basic **API Gateway** to route and manage requests between multiple backend services.
- Developed **35+ REST API endpoints** for admin management, monitoring and **authentication**, and **20+ REST API** endpoints across **3 mock services** to simulate service interactions using **Spring Boot** and **Hibernate/JPA**.
- Implemented a **multi-tenant architecture** where a **super admin** can manage **multiple organizations** and their services independently, with **tenant-wise rate limiting**, request logging, health monitoring, and traffic control policies.
- Implemented **JSESSIONID-based authentication** for super-admin access, enabling tenant, user, service and gateway config management; designed a **PostgreSQL** database with **7 tables**; used **Docker for containerized deployment**.

Programming Club Website | *Java, Spring Boot, PostgreSQL, JPA/Hibernate, Docker* — **[Live]** | **[GitHub]**

- Developed **REST APIs** for user management, member profiles, Codeforces data, and leaderboards using **Spring Boot, Hibernate/JPA, and PostgreSQL.**
- Implemented **JWT auth**, role-based access control, validation, pagination, and centralized exception handling.
- Integrated Codeforces API with scheduled rating sync and added backend tests and **Swagger/OpenAPI** documentation.
- Used AI-assisted coding for debugging, code refactoring, test generation, and improving backend documentation.

RepoPulse – a GitHub-like System | *Java, DBMS, PostgreSQL, JDBC* — **[GitHub]**

- Designed a PostgreSQL relational database with **25+ tables** (mostly **BCNF-normalized**) for GitHub-like entities.
- Implemented a Java **JDBC-based** console application to perform **CRUD operations** on the relational database.
- Implemented **15+ GitHub-like workflows** using normalized relational models while ensuring data integrity.

Technical Skills

Languages: C, C++, Java, SQL, Python

Databases: PostgreSQL, pgvector

Backend: Spring Boot, Hibernate/JPA, JDBC, REST APIs

Developer Tools: Git, GitHub, GitHub Actions (CI/CD), Docker, Postman, Render, Vercel, Ubuntu

Technical Electives: Data Structures and Algorithms, Object-Oriented Programming, DBMS

Areas of Interest: Competitive Programming, Backend Development, Problem Setting

Position of Responsibility

Deputy Convener | Former Batch Representative - Programming Club, DAU — **August 2025 – Present**

- **Assisting in leading the Programming Club**, organizing **Pre-Placement Tests** for **450+ students** and the club's **flagship event** with **120+ participants**. Mentoring juniors through **sessions** and **post-contest discussions**.
- Organized **10+ intra-college contests (80+ participants)**, handling **problem setting, testing**.

Achievements

- **Codeforces: Expert (Max. 1642, Top 1000 in India)** [Raj_Patel_7807]
- **LeetCode: Knight (Max. 2059, Top 1.8% Globally)** [Raj_Patel_7807]
- **CodeChef: 4-Star (Max. 1816)** [raj_patel_7807]
- Solved **3000+ coding problems** across platforms including Codeforces, LeetCode, CodeChef [Profile]
- JEE (Main) 2024: **98.77** Percentile [in **Top 1.23%** among 1.5 million students]
- All Gujarat **Rank 65** among 38K+ students (Class 12th Science Board Examination)
